***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

None of the prior art references teach or suggest left and right corner reinforcement members on a wheel rim which extend laterally outward and radially inward as claimed. The patents to Chen '937 and Alberti et al show extensions at the corners of the rims, but those on the rim of Alberti et al do not extend radially inwardly, and the extensions of each rim are used to mount the spokes, and therefore the rims do not have a spoke mounting wall as set forth in claim 1 of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
